

## Travel Policy

---

On an annual basis, OSU has many teams travelling domestically and internationally for competition. Included in these travels are athletes, team officials and family members. It is important that as individuals participating in these events, to make yourself fully aware of all border entry and exit requirements when competing and travelling in another country. These travel requirements may vary depending on the destination and may require the individual to provide documented evidence of travel plans in the form of specific government issued and/or non- government issued documentation (i.e Tournament name, location and verification of invitation)when crossing international borders.

The ultimate decision for participation in events that require extended travel outside of the Ottawa area is each individual family's choice, and each individual is responsible to meet all necessary travel requirements in order to safely travel.

OSU requests of all families before travelling abroad, that participants familiarize themselves with contents, warnings and directives as outlined in The Government of Canada's Travel resources and travel framework as found in <https://travel.gc.ca>.

Thousands of OSU players and their families have enjoyed the benefits of tournament participation abroad over the years. Familiarising your–self with international travel requirements is a critical part of preparing for cross-border travel.
